RECORD SETTING PLANTING SEED EXPORT PACE CONTINUES;
JULY/MARCH 1986/87 EXPORTS REACH $320.6 MILLION

TRADE SUMMARY

Exports of U.S. planting seeds continued at a record setting pace as the total to-date (July 1986/March 1987) exceeded $320.6 million, up 4 percent from the same period of 1985/86. Forage and turf seed exports climbed 41 percent to $69.9 million. Exports of vegetable seed increased slightly to $116.9 million and soybean seed surged 54 percent to $21.9 million. In contrast, corn seed (not sweet) fell 32 percent to $57.6 million, grain sorghum seed 37 percent to $11.9 million, and tree and shrub seed 29 percent to $1.6 million.

Italy kept the first place position as a U.S. seed export market that it earned last year. Exports to Italy increased 16 percent to $54.4 million. Japan moved into second place by registering shipments valued at $33.5 million, 19 percent over last year. Mexico fell to third and France to fourth as exports declined 11 percent and 27 percent, respectively. Canada and the Netherlands kept their relative positions, even though exports to those two countries increased 27 percent and 56 percent, respectively. Exports to the top six countries represented 60 percent of total U.S. exports of planting seeds.

Exports to the European Community (EC-12) increased only 6 percent in value over the same period last year to $133.9 million. This compares to a 37-percent increase last year over a year earlier. Exports to the EC-12 which include three of the top six major country markets accounted for 42 percent of total U.S. planting seed exports. This compares to 41 percent during the same period last year. Corn seed (not sweet) continued as the largest export item ($36.9 million) even though shipments dropped 33 percent. Grain sorghum seed exports fell by an almost equal percentage. In contrast, soybean seed, vegetable seed, and forage and turf seed all climbed impressively by 116 percent (to $16.9 million), 14 percent (to $43.5 million), and 51 percent (to $14.6 million), respectively.

Forage and turf seed exports climbed 41 percent to $69.9 million during the July 1986-March 1987 period. Canada was the largest market with $11.6 million (a 39-percent increase over the same period a year ago) followed by Japan with $10.2 million (a 5-percent increase), Saudi Arabia with $10.1 million (a 233-percent increase; see FFVS-2-87, March 1987, for a discussion about this increase), Mexico with $5.6 million (a 20-percent decline), and Italy with $5.5 million (a 94-percent increase). In volume terms, Saudi Arabia was the largest market. Japan was next with 8,228 tons followed by Canada (5,825 tons), Mexico (4,544 tons), and Italy (3,681 tons). Shipments to Mexico reflect an important decline in unit value.

During the first 9 months of the 1986/87 marketing year, shipments of

uncertified alfalfa seed increased 63 percent in value and 73 percent in volume to $3.7 million and 1,685 tons, respectively. Mexico was the largest market with 746 tons valued at $1.5 million. Certified alfalfa seed export data is still skewed by questionable reports about shipments to Saudi Arabia.

Bentgrass and Kentucky bluegrass seed exports continued to increase over the preceding year. Exports by value jumped 72 percent and 42 percent, respectively, over last year. By volume, both were 35 percent ahead of last year. Clover seed exports for the period were down 2 percent by value to $5.2 million yet up 6 percent in volume to 2,811 tons. Red and ladino clover seed were up in both value and volume terms while "other" clover seed registered substantial declines. Shipments of fescue seed increased 25 percent by value and 32 percent by volume to $4.9 million and 4,000 tons. Annual ryegrass shipments surged 33 percent by value to $4.5 million and 56 percent by volume to 8,999 tons. Perennial ryegrass exports recovered some of the declines registered earlier in the year and improved to only 7 percent in value and 15 percent in volume below last year (compared to 33 percent and 48 percent for the first 6 months, respectively).

Vegetable seed exports increased 8 percent in value during the latest July/March period to $116.9 million. Japan became the largest vegetable seed market, by virtue of a 23-percent increase in shipments by value to $15.3 million, and a 14-percent decline in shipments to Mexico (last years leader at the end of March). The Netherlands also surged ahead of Mexico by climbing 60 percent to $15.2 million. As stated, Mexico dropped to third place with $14.3 million. Shipments to Italy also declined (25 percent to $9.9 million), causing it to drop to fourth place. Exports to these four markets account for 47 percent of total U.S. vegetable seed exports during the period.

Bean seed exports surged 41 percent to $18.1 million, still the vegetable seed with the largest market. Shipments to the Netherlands were valued at $6.5 million, up 98 percent from a year earlier and 36 percent of total bean seed exports. Pea seed exports, the next vegetable seed in terms of market value, climbed 16 percent to $11.1 million. The United Kingdom accounted for 25 percent of the total with shipments valued at $2.8 million. Exports of radish seed continue to grow faster than any other kind of vegetable seed, a 60-percent increase over the previous July/March period (compared to a 50 percent increase after 6 months). Other vegetable seeds showing increases were carrot seed (30 percent), lettuce seed (25 percent), spinach seed (19 percent), watermelon seed (8 percent), and onion seed (6 percent). In contrast, cantalope seed, sweet corn seed, tomato seed, squash seed, cucumber seed, beet seed, and pepper seed all registered declines from the same period last year.

Flower seed exports increased slightly to $7.1 million. France was the largest market, receiving shipments valued at $1.5 million, 58 percent above last year. Tree and shrub seed exports declined 29 percent to $1.6 million.

Corn seed exports declined 32 percent to $57.6 million during the 9-monthperiod. Italy continued as the largest market after 9 months although shipments declined 15 percent in value to $17.8 million. France is second with $10.7 million. Bulgaria, a good market last year, has not purchased any corn seed during marketing year 1986/87. Other important corn seed markets are Mexico with $6.0 million (up 46 percent), Greece with $3.7 million (down 32 percent), Japan with $3.4 million (up 66 percent), Turkey with $3.3 million (up 1 percent), Spain with $3.1 million (down 8 percent), Canada with $2.8 million (up 79 percent), Argentina with $1.6 million (up 267 percent), and Portugal with $1.0 million (up 76 percent).

Grain sorghum seed exports also declined substantially, 41 percent to $11.9 million. Mexico and Venezuela, the largest U.S. markets, were both off substantially. Exports to Mexico were off 41 percent by value to $3.1 million and 44 percent in volume to 4,557 tons. Shipments to Venezuela were off 27 percent in value to $3.6 million and 24 percent in volume to 3,465 tons. Due to Mexico's erratic purchasing behavior it is unclear what the final exports to that country might be. In the case of Venezuela, their import needs now appear to be in the range of 5,000 tons.

Soybean seed exports surged 54 percent in value to $21.9 and 47 percent in volume to 43,635 tons. Italy was the major destination with shipments totaling 32,359 tons, valued at $15.5 million, both measurements up over 100 percent.

COMPETITOR ACTIVITY

In Saudi Arabia a new company was recently created to "produce and trade in seeds and plant tissues." Its owners include large semi-public farming companies and individual farmers. In the beginning it will emphasize wheat and other field crop seeds. Vegetable seeds will follow later. When fully operational, this company could seriously disrupt U.S. planting seed exports to Saudi Arabia.

MARKET OPPORTUNITIES

An Argentine garlic producer/exporter is interested in finding garlic seed suppliers in the U.S. Southwest or California. Interested breeders may contact the Office of the Agricultural Counselor, U.S. Embassy Buenos Aires, APO Miami 34034 (TELEX: 18156 USICA AR: TELEPHONE: (011-54-1) 774-0962) or this office for more information.

The U.S. Agricultural Trade Officer (ATO) in Tunis reports that Tunisia's planting seed import needs are likely to increase in the next few years. Imports in calendar year 1986 were 13,446 tons valued at $8.3 million. Potato seed dominates the market at the present time but there is increasing interest in expanding production of fruit, vegetables, feedgrains, and other crops on land newly opened to irrigation. Seed buyers are both government buying agencies and private companies. The National Institute of Agronomic Research (INRAT) controls seed testing in

Tunisia. INRAT requires field testing over three consecutive crop cycles prior to granting approval for importation and listing in the official seed catalogue. Contact the ATO, 6 rue St. Fulgence, 1002, Tunis (TELEX: 14307 USATO; Telephone: (011-216-1) 289-383 or 781-553) for more information and possible assistance.

CHARTS AND GRAPHS

Chart 1 demonstrates the importance of Mexico and Venezuela to the U.S. grain sorghum seed export market. Exports to those two countries are down substantially in this marketing year, as illustrated by the 1986/87 pie chart. The growing importance of Italy as a soybean producer is demonstrated by the much larger portion taken by soybean seed in the same pie. This is also indirectly demonstrated by the reduced portion occupied by corn seed as the expansion in Italian soybean area is coming largely in Italy's traditional corn area.

Chart 2 shows that markets in most regions of the world are expanding at almost the same rate as the total market. The major exceptions are Europe (principally the EEC), which has grown tremendously as a market, and North America (primarily Canada) which has fallen.

Chart 3 demonstrates the importance of the January/March quarter to U.S. exports of planting seeds (and, conversely, the lack of importance held by the April/June quarter). Based on performance through three-quarters of the marketing year since 1981/82, it is likely that total exports for 1986/87 will fall within a range of $375 million to $395 million. Taking into consideration the below-average performance during the previous marketing year (1985/86), the actual total is more likely to fall in the lower end of the range than the higher. Anywhere within the range, or even somewhat below it, will still allow the year to end setting a new U.S. planting seed export record.

Do you need information about

- Overseas markets and buying trends?
- New competitors and products?
- Trade policy developments?
- Overseas promotional activities?

Then **Foreign Agriculture** — USDA's fact-filled monthly agricultural trade magazine — is for you. Based on official USDA data available nowhere else, **Foreign Agriculture** articles are clear and crisp, written to provide the export information you need, in a concise and extremely readable form.

Special information is found in **Foreign Agriculture**'s telegraphed, targeted news departments: Fact File, Country Briefs and Marketing News. And its tables and graphs will give you an immediate grasp of what's going on overseas.

In addition, periodic special issues—such as the one devoted entirely to the 10 steps to marketing success—will give you a wide range of detailed information about overseas markets.

If you use agricultural facts and figures in your business, you need **Foreign Agriculture**.

Subscribe today! Just $11.00 ($14.00 for foreign delivery) brings you Foreign Agriculture for 12 full months.

SUBSCRIPTION ORDER FORM

$11.00 domestic (United States and its possessions); $14.00 foreign. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or money orders will be accepted. **No refunds can be made.**

FAS Circulars: Market Information For Agricultural Exporters

As an agricultural exporter, you need timely, reliable information on changing consumer preferences, needs of foreign buyers, and the supply and demand situation in countries around the world.

The Foreign Agricultural Service can provide that information in its commodity circulars.

World agricultural information and updates on special FAS export services for the food and agricultural trade all are available in these periodic circulars.

For a sample copy of these reports—which can supply you with the information you need to make sound business decisions—check the box indicated, fill out the address form, and mail it today.

To subscribe: Indicate which publications you want. Send a check for the total amount payable to the Foreign Agricultural Service. Only checks on U.S. banks, cashier's checks, or international money orders will be accepted. NO REFUNDS CAN BE MADE.
